Document history and Status

Report by: BarrierBreak

Prepared for: Avener

Version: 1.0

Executive Summary

In **April 2026**, an Accessibility evaluation of the **Avener** was performed based on WCAG 2.2 Level AA along with the IS 17802, GIGW 3.0 and SEBI requirements.

In total, sample of **1** page of the **Avener** website were evaluated and surfaced **21** issues.

The website was tested by accessibility consultants using different automated tools and manual review conducted by accessibility consultants and persons with disabilities. Overall issues identified as per the tests performed are documented in the bug report that is shared separately.

Purpose and Methodology

The audit was performed using automated tools and assistive technologies as well as with different web browsers.

Automated tools:

- A11yInspect

Assistive Technologies:

- Screen readers
 - JAWS 2024
 - Talkback
- Screen magnifiers
 - ZoomText 2025
- Speech Recognition Testing
 - Dragon Naturally Speaking 16
- Keyboard-only interaction

Operating System and Web Browsers:

- Google Chrome 147
- Android 15

WCAG 2.2 Success Criteria

The table below shows, **47** of the WCAG 2.2 Level A and AA success criteria were either conforming or not applicable across the page, whereas **9** criteria were either not conforming or partially conforming of the 56 WCAG 2.2 Level A and Level AA success criteria.

	Passed/NA	Failed	Total
Level A	29	3	32
Level AA	18	6	24
Total	47	9	56

The **Avener** website failed to conform with few of the WCAG 2.2 success criteria's at level A and AA.

Based on the above data, the **Avener Website** currently partially conform with the WCAG 2.2 requirements.

Top Accessibility Issues

Following are the top accessibility issues found in the **Avener** website.

- Content fails to reflow
- Content not available by default
- Content not available with browser zoom
- Focus indicator is not clearly visible
- ARIA attributes defined unnecessarily

This document reflects the status of the website as assessed at the time of evaluation.

Commitment to Accessibility

Avener demonstrates a strong commitment to advancing digital accessibility and embedding inclusive practices across its website. The evaluation serves as a foundational step toward achieving and sustaining conformance with WCAG 2.2 along with IS 17802, GIGW 3.0 and SEBI requirements.

By addressing the findings and implementing the recommended improvements, **Avener** is taking meaningful action to ensure equitable access for all users, including people with disabilities. Continued monitoring and iterative improvements will enable **Avener** to work towards maintaining conform with WCAG 2.2 along with IS 17802, GIGW 3.0 and SEBI requirements while enhancing the overall user experience.
